Consumption is caused by germs; so is Catarrh.
People who have catarrh are liable to become victims of dread consumption.
The reason is very simple. Germs of consumption, no matter how vicious, can make little headway when the membrane of the nose, throat and bronchial tubes is When, however, the membrane is raw, sore and inflamed because of catarrh, and the ravages of devilish catarrh microbes, the germs of consumption can easily and quickly find a home to their liking, and thus begins thousands of cases of consumption. It starts with a cough and ends in a coffin.

Get rid of catarrh, if you have it, and you can get rid of it if you will breathe HYOMEL, a soothing healing antiseptic air that reaches the nose and throat and goes clear into the air cells of the lungs, where it destroys catarrh germs and cures catarrh.

Sprays, douches, snuffs, cintments and stomach dosing won't cure catarrh.

Sprays, douches, snuffs, cintments and stomach dosing won't cure catarrh.

Sprays, douches, snuffs, ointments and stomach dosing won't cure catarrh. You've got to get where the germs are before you can kill them, and HYOMEI gets there while all other treatments fail. Delays only invite needless danger; get a HYOMEI outfit to-day at any good drug store for \$1.00. If you already own a HYOMEI inhaler, you can get a bottle Tragle Drug Co. guarantee it.	Finisy c

Informal Conference Held Yesterday at Office of Governor Mann.

Plans for future work, as soon as the board becomes officially in exist-ence, were mapped out yesterday at an informal meeting of the reconstructed nformal meeting of the reconstructed nited Agricultural Board of Virginia.

informal meeting of the reconstructed United Agricultural Board of Virginia, held in the Governor's office in the Capitol. Demonstration work was the immediate subject of conference, applications having been received already for demonstration work in forty-three counties. Still other applications will be filed later.

The United Agricultural was reconstructed by the last Legislature, when the time came for determining whether the body should be continued in existence. As the bill was not an emergency act the board does not become officially active under ninety days after the enactment, which will be about June 1. The new board consists of four officials—the Governor of Virginia, the State Superintendent of Public Instruction, the State farm demonstrator, and the United States demonstrator. In this case the men forming the board are Governor Mann, J. D. Eggleston, T. O. Sandy and Dr. Bradford Knapp, of Washington, It is believed that the efficiency of the Agricultural Board has ben Increased by the curtailment of membership, and great things are expected of the body during the next two years.

WOMENS OUTER GARMENTS

Recommends That Monument Avenue Be Extended to Three Chopt Road.

In special session yesterday after-Chamber of Commerce adopted the reextension of Monument Avenue as far west as the Three Chopt Road. It was stated to the board that the right of way could be obtained free except through the Porbes tract, a proposition concerning which is now before the Council Street Committee. Representatives from the committee, however said that the Richmond, Fredericksburg

said that the Richmond, Fredericksburg and Potomae Raliesad had informed them that the company would be opposed to a grade crossing, but it was intimated that its consent might be obtained if the city would agree that this be the only crossing of the kind between Broad and Cary Streets. After a good deal of discussion, in which the feasibility of tunnels and overhead crossings were suggested, it was decided simply to make the recommendation and leave the accomplishment in the hands of the city and county.

The question of the establishment of a union depot for all the roads entering the city was reported on. The committee on inland trade, to which the matter had been referred, recommended the location of such a station, with adequate trackage, in the neighborhood of Fifteenth and Main Streets. Members of the board were divided at to the proper location, and it was finally decided that conference be held with the rallroads and that the question by the content of the proposed station was stricken from the replation innered to a later meeting. All reference to location near the proposed station was stricken from the replation innered to glace the station near the present Main Street station.

Chesapeake and Ohio Engine Hauls 110 Cars of Coal to Newport News.

Testing out one of its new engines of the Mikado type, recently installed, the Chesapeake and Onto Raliway Company yesterday morning hauled from this city to Newport News what, so far as records go, was the longest train ever pulled by a single engine in the State. It consisted of 110 steel coclears of lifty tons capacity each. The trip was made without incident, the actual running time being approximately five hours, which is the time allotted the regular freight trains for the run. Division Superintendent E. J. King and Trainmaster Charles S. Wright accompanied the craw on the run and returned to the city last night, highly pleased with the performance of the latest acquisition in the way of motive power.

motive power.

The train was identified on the train sheets as "Extra 901," the number being that assigned to the engine. The cars were what are commonly known among railroad men as "battleships." Counting the slack, they are forty feet in length, and are constructed to contain at least fifty tons of coal. Allowing the engine, an enormous affair, with eight drivers, sixty feet, and the caboose thirty fost, the length of the train over all would be 4.499 feet, or a good deal more than three-quarters of a mile. The net load would be 5.590 tons, a small mountain of coal, which, if properly distributed, would serve all Richmond for some little time. While the "901" probably will not hereafter be called upon to carry such a load on every run, there is no doubt but that it has "made good" and that other mogules of the Mikado type will drag their long strings of black cars over the line of the Chesapeake and Ohio for many days to come. The train was identified on the train

CHARGED WITH ARSON

Negro Arrested, Said to Have Burned Barn Containing Horses.

News of the indictment of William Willian, colored, for arson by the Circuit Court of Brunzwich county, was received yesterday in the office of Colonel Joseph Hutton, State Commissioner of insurance. The trial of Wilkins will begin this morning.

Wilkins will begin this morning.

Wilkins will begin this morning, which activity of one of the operatives of the Bureau of Insurance and charged with the burning several horses, which were the property of F. W. Elimore at Pool. Revenge was thought to have been the motive for the crime.
